

The Selection by Kiera Cass

This book is about a girl who grows up in a poor society till she is eligible to be in a selection for her to be the bride of a Prince. She never wanted to be in this Selection until she starts to fall for the Prince, but the only reason she joins the Selection is because of her secret boyfriend (from her hometown) who urges her to join.

I read this book because I love Dystopian Series and I heard that it was a good book, and they were not wrong! It is an amazing book and I love that it is a series so that the plot continues to go on. I never thought I would be into something with gowns and Princes and royalty, but this book did justice and it is now one of my favorite series! So, even if you're not into stuff like royalty, I still believe ANYONE would love this book. I think of the reasons I enjoyed this book so much is because the main character didn't even want to participate in The Selection, while almost every single girl did. She was lucky in everyone's mind to have been chosen out of the thousands of girls who submitted an application, but she didn't find it so lucky. I think the fact that this girl is outspoken, lively, stubborn (but in a good way), and a little bit manly makes the whole story. She is the type of girl that I believe many people can relate to. I would consider this book as one of the best books I have read!
